## NOTICE AND AGENDA OF MEETING OF THE ARIZONA POWER PLANT AND TRANSMISSION LINE SITING COMMITTEE

Pursuant to A.R.S. §38-431.02, notice is hereby given to the members of the Arizona Power Plant and Transmission Line Siting Committee and to the general public that the Arizona Power Plant and Transmission Line Siting Committee will hold a meeting consisting of a tour, open to the public on **Wednesday**, **March 2**, 2005, at 9:30 a.m. The tour will be an inspection by the Committee of a portion of the proposed and alternative transmission routes, including Area B, and the project area.

The tour will start from the parking lot of **The Arizona Corporation Commission**, 1200 **West Washington Street, Phoenix, Arizona 85007**. Members of the public may follow the Committee's tour by use of their own private vehicles. At the meeting, the Arizona Power Plant and Transmission Line Siting Committee will view different points of interest in the proposed transmission corridor.

A more detailed description of the Committee's itinerary consisting of a narrative description and maps are on file at the offices of Docket Control and the Executive Secretary at the Arizona Corporation Commission, 1200 West Washington Street, Phoenix, Arizona 85007, and copies attached to this Notice and Agenda.

The Siting Committee will <u>not</u> conduct any discussion or deliberations during the tour. The Chairman of the Committee will make any necessary procedural decisions during the tour.

The agenda for the meeting is as follows:

1. Tour a portion of the proposed route and alternate routes, including Area B, and surrounding areas of the Southeast Valley/Build-out Browning project which includes the construction of transmission lines from Pinal West to the Browning Substation and other interconnection components in Pinal and Maricopa Counties, Arizona Docket No. L00000B-04-0126, as described in the attached Exhibit A, consisting of a route tour itinerary and map.

DATED, this 3 day of February, 2005.

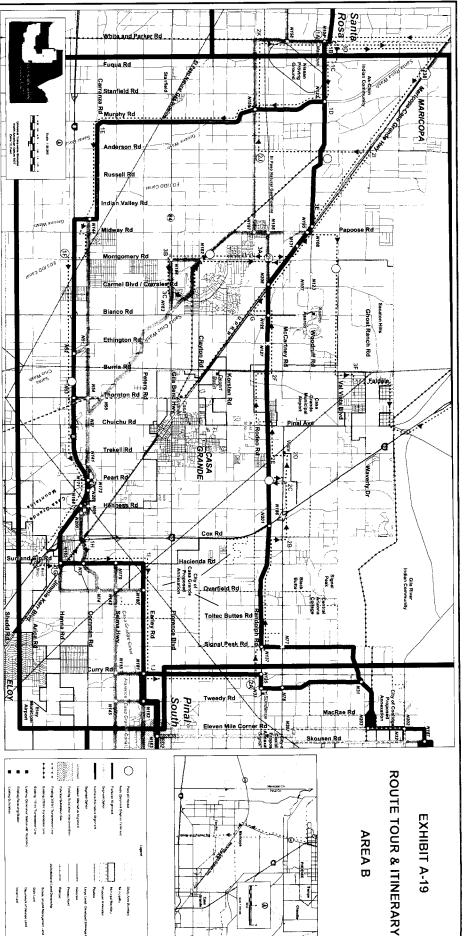

ARIZONA POWER PLANT AND TRANSMISSION

LINE SITING COMMITTEE

Laurie A Woodall Chairman

## referred Aligament

From Phoenix take I-10 East. Take the exit to Maricopa (Highway 347). Travel on Hwy 347 for approximately 16.2 miles into the city of Maricopa. Turn left onto the Maricopa-Casa Grande Hwy, (238) and travel 3.7 miles to White and Parker Rd. Turn right (south) nonto White and Parker Rd. Turn level south for approximately 4.5 miles to the Santa Rosa / Maricopa Substation. This is the starting point for the Area B lour.

- ٦ From the Santa Rosa / Maricopa Substation, turn around and travel north approximately 0.5 miles to the boundary of the Ak-Chin Indian Community.
- 1B Tum right and travel on the right (south) access road for approximately 1 mile

ó

- mm right (south) off the access road to the 230 kV condor. Turn east and continue driving eastward parallel to the easing transmission lines for approximately 1.3 miles in the Suria Roca Wash. The Preferred Alignment parallels the easing 230 kV transmission line from the Sanita Rosa Substitution to the Sanita Rosa Wash.
- At the Samta Rosa Wash turn right (south) and travel on the west side of the wash's access road. Continue along the Santa Rosa Wash, which is the Preterrec Alignment, approximately 6 nules.
- When the Santa Rosa Wash intersects Carranza Rd, turn left (east) onto Carranza Rd. Traedia proximately 3.5 when the Santa Rosas Wash intersects the Carranza Rd, turn left (east) onto Carranza Rd. Traedia proximately and miss until it intersects the ED3 IDD Carranza Rd. Traedia southeast then continue southeast along Greene Wash to Mickey Rd. Take Midvey Rd. north to Comman Rd. Tavel east on Comman Rd. 1 mile, then Greene Wash to Midway Rd. Take Midway Rd. turn right on Montgomery Rd. and enter I-8 East.

ñ

- (7) Take I-8 east approximately 10.5 miles. The Comman Rd alternative is 1/2 mile north and Hanna Rd is 1/2 mile south. There is a distribution line on either side of I-8 at these alternatives. The Hanna Rd, option would cross north between Burst and Thomton Roads. The Casa Grande Mountain Ranch option would commence at IV28 and run easterly to N/73. Stay right at the intersection of I-10 E towards Tucson and immediately exit at Surland Gin Rd, Lun Helf (north) and travel approximately 1.2 miles to immine Kerr Blvd. (Hwy 84). Stop briefly at N 156 to observe alternatives. A rest stop may also be taken here.
- 6 Turn left (northwest) onto Jimmie Kerr Bivd, and travel approximately 1 mile. Eait the road to your right (north side of road) just prior to the I-10 ramp and travel to the access road on the far side of the first canal (Florence case Grande Canal).
- Once over the canal. Iravel east (right) for approximately 0.9 miles. Take the road on your left over the Casa Grande Canal. Once on the north side of the Casa Grande Canal, turn right (east) 0.1 miles to Hademás Rd Turn left (north) onto Hacienda Rd and travel 1.3 miles to Earley Rd.

Î

At the intersection of Hacienda and Earley Roads, turn right (east) onto Earley Rd. and travel approximately 4 miles to the Casa Grande Canal and Curry Rd. The Preferred Alignment parallels both of these roads.

=

At the intersection of Earley and Curry Roads, turn left (north) onto Curry Rd, and travel approximately 4 miles to Randolph Rd. The Preferred Alignment parallels Curry Rd. from Earley Rd. This is the start of the Northern

- Northern Alternative Alignment
- (a) Turn left (vesst) onto Randolph Rd, and travel 1 mile to Signal Feak Rd. At the interestion of Randolph and Signal Feak Roads, turn right (ordh) to the point wheet the EI Paso Natural Cass Experies access rapid interests with Signal Feak Rd. It is urn left (vesst) and travel along the pipeline access road approximately 4 miles to Cox Rd. This is the Norderon Alemnative Alignment. Turn right (north) onto Cox Rd. Take Cox Rd. approximately 0.5 miles to McCartney Rd.
- At the intersection of Cox and McCartney Roads turn left (west) onto McCartney Rd. Continue on McCartney Rd. over I-10 approximately 2 miles to Peart Rd.

20 28

- At the intersection of McCartney and Peart Roads, turn left (south) and travel 0.5 miles to the El Paso Natural Gas Pipelines. When you get to the gas line corridor, stop and look east and west. This is the preferred Northern Migrament. Turn around and return to McCartney Rd. At McCartney Rd. turn left (west) and travel 1 mile to Trekell Rd.
- At the intersection of McCartney and Trekell Roads, turn left (south) and travel 0.5 miles back to the El asc Natural cas ripenie access roac
- At the pipeline access road turn right (west) and travel aton the pipelines access road (the Preferred Northern Alignment) approximately 1 mile to Prod and. At Pital vace turn left (cutth) and travel for 0.5 miles to Rodeo Rd. A real stop may be taken here. At the intersection of Piral Ave. and Rodeo Rd turn right (west) and travel along Rodeo Rd approximately 2 mile to Burris Rd. At Burris Rd. Lum right (north) and continue to the pipeliness access road.

2E 20

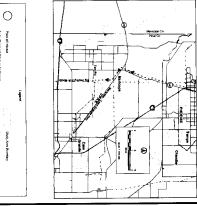

- At the pipeline access road, turn left (west) and travel 2 miles along the pipelines access road to Bianco Rd. Turn left (south) onto Bianco Rd. and travel 0.7 miles to the Maricopa-Casa Grande Hwy
- At the Maricopa-Casa Grande Hwy, turn right (northwest) and travel 2.5 miles to Montgomery Rd. At Montgomery Rd. turn left (south) and travel 0.7 miles to the EI Paso Natural Gas Pipeline corridor which is a Segment Option that runs east and west 1 mile from this point. It is at this point that you may proceed with Option 1.
- Turn around and return to the Maricopa-Casa Grande Hwy. At the Maricopa-Casa Grande Hwy. turn left (northwest) and travel approximately 4.8 miles to Anderson Rd.

(P)

2G 2F

- At the intersection of Maricopa-Casa Grande Hwy, and Anderson Rd. turn left (south) and travel approximately 4.2 miles to the intersection of Anderson and Barnes Roads.
- At the intersection of Barnes and White and Parker Roads, turn right (north) and travel 2.5 miles to the Santa Rosa Substation and the end of the Norther Alternative Alignment tour. It is at this point that you At the intersection of Anderson and Barnes Roads, turn right (west) onto Barnes Rd. and travel 4 miles to White and Parker Rd. Stop and look east toward N197, this is an alternative.

2 2

Optional Route Tours

Option 1 This will take approximately 15 minutes

- 3A Continue southward on Montgromery Rd. from the EI Paso Natural Cas Pipeline access road approximately 2.5 miles to the existing 230 kV transmission line. Stop and book. A Segment Option comes from the northwest to this point, N162, peralleling the transmission line. Continue along Montgomery Rd. another 1 mile to the Gila Bend Hwy.
- 3B Turn left (east) onto the Glia Band Hwy, and travel approximately 1.2 miles to Candlestek Dr. Turn left (north) approximately 0.5 miles and then left onto the Santa Cruz Wash access road and travel along the wash and the 230 kV transmission line approximately 2.6 miles to Montgomery Rd. A portion of the Santa Cruz Wash is a Segment Option.
- Where the transmission line and Montgomery Rd. intersect turn right (north) and travel approximately 2.4 miles back to the El Paso Natural Gas Pipeline access road to continue the tour of the Northern Alternative Alignment at 2H.

## Option 2. This will take approximately 30 minutes

- 30 From the Santa Rosa Substation continue north on White and Parker Rd approximately 4.5 miles to the Mariocopa-Class Grande Hwy. Turn right (southeast) onto the Hwy. and travel approximately 8.5 miles to Parpose Rd.
- Turn left (north) onto Paposes Rd. al N188. Continue north approximately, 1 mille to Val Visas Bed. Turn right on Val Visas Biod, and tervole east approximately 5 miles to Burtis Rd. Turn left (north) noto Burtis Rd. and travel approximately 1/2 mile to Hops. I mile to Geronimo, take Geronimo north 1/2 mile to Ghost Ranch Rd.
- 3F At Ghosi Ranch Rd. turn right and travel 0.2 miles to Faldale Rd. Turn left onto Faldale Rd. and travel north approximately 1 mile to the Gila River Indian Community. At the boundary, turn right (east) and continue along the boundary approximately 1.6 miles to Phat Ave. At Pinal Ave. turn left (north) and continue to the I-10 interchange and the end of the Option 2 tour.
